

Prakash Chand

Senior Cyber Security Analyst | VAPT | Red Teaming | Web, Infrastructure & Active Directory Penetration Testing

Phone: +91 9667220991 | Email: prakashchand.me@gmail.com | Location: New Delhi, India

LinkedIn: <https://www.linkedin.com/in/prakashchand72/> | Website: <https://astute72.vercel.app>

PROFESSIONAL SUMMARY

Senior Cyber Security Analyst with hands-on experience across web application penetration testing, infrastructure VAPT, red team operations, Active Directory security, phishing simulation, vulnerability assessment, security audits, digital forensics, and ransomware/malware analysis. Experienced in testing commercial, banking, financial, trading, cryptocurrency, personal, and enterprise applications using manual testing methods and industry tools including Burp Suite, Nmap, Nessus, Nuclei, OWASP ZAP, SQLMap, Frida, Metasploit, Cobalt Strike, Sliver, BloodHound, Rubeus, Impacket, and NetExec.

CORE SKILLS

- Web Application Penetration Testing
- AI Security / AI Pentesting
- Vulnerability Assessment and Penetration Testing (VAPT)
- Infrastructure Penetration Testing
- Active Directory Penetration Testing
- Red Team Operations and Adversary Simulation
- Internal and External Network Penetration Testing
- Phishing and Spoofing Simulation
- Android Application Penetration Testing
- Thick Client Application Testing
- Reconnaissance, OSINT, and Deep Web Monitoring
- Security Configuration Audit and Hardening
- Vulnerability Validation, Exploitation, and Retesting
- Digital Forensics and Malware Analysis
- Ransomware Analysis and Malware Obfuscation
- Security Reporting, Risk Rating, and Remediation Guidance
- Python and Bash Scripting

PROFESSIONAL EXPERIENCE

Deloitte India - Senior Cyber Security Analyst | 2 years | Current

- Conduct web application, infrastructure, and Active Directory penetration testing to identify exploitable vulnerabilities and improve client security posture.
- Perform VAPT activities across servers, networks, middleware, operating systems, databases, and web applications using manual techniques and automated tools.
- Execute red team activities including reconnaissance, phishing/spoofing simulations, Active Directory attack paths, privilege escalation analysis, and post-exploitation validation.
- Prepare actionable security findings with risk ratings, exploitation evidence, remediation guidance, and retest validation.

Deloitte India - Cyber Security Intern | 5 months

- Supported penetration testing, vulnerability validation, reporting, and security assessment activities for enterprise environments.

CyberSigma - Penetration Tester Intern | 4 months

- Performed web application testing, reconnaissance, vulnerability discovery, and manual validation of security issues.

Prudentbit - Security Engineer | 7 months

- Worked on security engineering, vulnerability assessment, hardening checks, and security tool-based audits.

CBI Delhi - Security Analyst | 2 months

- Supported security analysis and cyber investigation activities in a government security environment.

Gurugram Police - Cyber Security Summer Intern | 2 months

- Assisted with cyber security research, incident analysis, and digital investigation support.

Cyber Social - Cyber Security Intern | 2 months

- Supported cyber security awareness, research, and entry-level assessment activities.

TOOLS AND TECHNOLOGIES

Red Team / C2: Cobalt Strike, Sliver, Covenant, Havoc, Metasploit

Active Directory: PowerView, WinPEAS, BloodHound, Rubeus, NetExec, Impacket, malware obfuscation techniques

Phishing / Spoofing: MailHog, GoPhish, Social-Engineer Toolkit (SET), Mailgun, Emkei

VA/PT: Burp Suite, Nuclei, Nikto, Feroxbuster, Nmap, Nessus, OWASP ZAP, SQLMap, John the Ripper, Frida Framework

Digital Forensics: EnCase, FTK Imager, Wireshark, Autopsy

CERTIFICATIONS

- Offensive Security Certified Professional+ (OSCP+)
- Certified Red Team Professional (CRTP)
- CRTA Red Team Analyst (CRTA)
- eLearnSecurity Junior Penetration Tester (eJPT)
- Certified AppSec Practitioner (CAP)

- Hack The Box Pro Labs: Dante

EDUCATION

- Master of Business Administration (MBA), Golden Gate University, San Francisco, California - currently pursuing remotely
- B.Tech in Computer Science and Engineering, Specialization in Cyber Security & Forensics - Sharda University

ACHIEVEMENTS

- Listed in Hall of Fame programs for BlackBerry, Nokia, Philips, Trend Micro, Hindawi, Drexel University, Utrecht University, NordNet, and others.
- Received letters and certificates of appreciation for bug hunting from Lenovo, Samsung, Cambridge University, Indian Government, TechGig, and others.
- Secured 40+ companies through bug bounty programs.
- Published a patent on a penetration testing automation framework.
- Cyber Hackathon 2nd Runner Up.
- Winner of multiple CTF tournaments including Bug-Base, GBU, Sharda, and others.
- Top 100 on Hack The Box India Leaderboard, October 2022.
- Ranked 1st in TryHackMe King of the Hill in 2023.
- Worked as a triager for YesWeHack.
